

South Africa – 16 Day

April timeframe, 2017, 2018, 2019

An Adventure for Your Senses

This 16 day Essential tour is for those who may not have as much time to spend exploring South Africa on our longer and more comprehensive Deluxe Adventure. We rendezvous and end in Johannesburg, which has many convenient flights from both Europe and the United States/Canada.

Upon landing we hit the ground running – pick up our motorhomes on Day 2, fill them with supplies at the local grocery and head directly into the wonderful land of South Africa. You will experience the culture, excitement, drama and adventure at every turn. Negotiate roads with some of the local wildlife, share meals and cultural experience with the local people and have memories that will last a lifetime.

One of the highlights of the tour is the 2 night stay at the Private Game Reserve. You are pampered and treated as royalty while viewing all the wildlife and nature experiences offered on this elite reserve. Game Drives and special dinners, learning opportunities and photo moments beyond compare.

Your registration includes a fully equipped Motorhome with Right Hand Drive, 4-Berth, 20 Foot, Diesel RV. Size is perfect for negotiating left hand roads and parking – ask us for floor plans and details. Amenities include: sheets, pillowcases, towels, service for 4 persons, plates, pots, pans and utensils. Full insurance with zero deductible is also included.

OPTIONAL TOUR: FOUR DAYS IN VICTORIA FALLS & FOUR DAYS IN CAPE TOWN

...AN AMAZING CURTAIN OF FALLING WATER FROM THE ZAMBEZI RIVER MAKE THIS — the largest waterfall in the world! Awe-inspiring vistas and the tremendous, billowing mist created from this natural force is incredible. Located in southern Africa at the border of Zambia and Zimbabwe this beautiful site was named in honor of Queen Victoria. However, the falls are still locally known at Mosi-oa-Tunya – ‘the smoke that thunders’ because of the enormous mist which sprays 1300 feet into the air. The neighboring national park in Zimbabwe is locally known as Victoria Falls, which could become confusing for visitors to the area.

Officially recognized as a UNESCO World Heritage Site, Victoria Falls is significant for its geological and geomorphological features. The Zambezi flows over Basalt Slabs for many miles approaching the falls – where a once small crevice has been cut by the river into this enormous display. Flowing through a series of eight spectacular basalt gorges – this area is rich with rare species and wonderful plants. Filled with interesting land formations and outstanding beauty it’s no wonder why this is such a popular attraction.
